

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Anne Bramming
DOCKET NO.: 04-20992.001-R-1
PARCEL NO.: 05-33-413-020-0000

The parties of record before the Property Tax Appeal Board are Anne Bramming, the appellant, by attorney Edward Larkin of Park Ridge and the Cook County Board of Review.

The subject property consists of a 63-year-old, two-story style single-family dwelling of frame and masonry construction containing 1,576 square feet of living area and located in Evanston Township, Cook County. Amenities include one full bath, one half baths, a full basement, a fireplace and a one-car garage.

The appellant, through counsel, appeared before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing three suggested comparable properties located within two blocks of the subject. These properties consist of two-story style single-family dwellings of masonry or frame and masonry construction from 65 to 78 years old. The comparable dwellings contain one full bath, half baths, basements, fireplaces, and have garages. The comparables range in size from 1,725 to 1,968 square feet of living area and have improvement assessments ranging from \$21.50 to \$22.03 per square foot of living area. A copy of the subject's 2004 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$36,139, or \$22.93 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three suggested comparable properties located in the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	9,995
IMPR.:	\$	36,139
TOTAL:	\$	46,134

Subject only to the State multiplier as applicable.

same coded assessment neighborhood as the subject. The comparables consist of 64 or 65 year old, two-story style single-family dwellings of frame and masonry construction. All of the comparables contain a full baths, a half bath, basements, and have garages; two also have fireplaces. These properties range in size from 1,507 to 1,721 square feet of living area and have improvement assessments ranging from \$23.49 to \$25.37 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds that the parties submitted six properties as comparable to the subject. The Board finds that all of the improvements are have similar amenities; two are superior in size; one is superior in construction type; one is inferior in construction type; and two have somewhat inferior amenities when compared to the subject improvement. These properties have improvement assessments ranging from \$21.50 to \$25.37 per square foot of living area. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
